TIME IS RUNNING OUT!

Your home is at risk. Your mortgage company has decided that since you aren't paying, they are going to sell your home out from under you.

YOU CANNOT LET THIS HAPPEN!

We have a solution!

Here is the simple fact of the matter. For one reason or another, your mortgage payments have not been made. Now the mortgage company is going to auction the home to the highest bidder. You may be able to save your home, but you have to know what your options are first.

COME IN FOR A FREE CONSULTATION!

Come into our offices for a free consultation. There is no obligation whatsoever and you can walk away without committing to anything. We only help those who want to be helped. We can discuss with you ways of saving your home from selling it on your own to using the Bankruptcy Court as a way to leverage the playing field with your mortgage lender.

YOU HAVE A LIMITED WINDOW OF OPPORTUNITY

Call our offices today because if you don't take any action, if you let your home go all the way to the foreclosure auction, if you end up being evicted from your home by the new owner, there is very little that we can do to help you. Once the foreclosure takes place, your options become very limited. While right now, you have an entire array of possibilities open to you. Come see us or go to our website to learn more about stopping foreclosure.

Sincerely,

The Jump Law Group
